## Preface

In pursuance of its objectives of serving as a clearing house of ideas and information on Adult Education, the Indian Adult Education Association started publishing *Indian Journal of Adult Education (IJAE)* in the very first year of establishment i.e., 1939. The Journal has now completed fifty years of its existence.

The IJAE is a Journal of inquiry, opinion and information on adult education. It contains news and articles on adult education programmes in India and abroad, research projects and experimental schemes. The Journal during all these years has kept the adult educators abreast of latest information and knowledge in adult education. It is read with interest not only in India but in over 60 countries of the World.

The journal was bi-monthly between 1939-50, quarterly during 1951-59, monthly during 1960-86 and a quarterly since 1987. Some eminent educationists had been associated with this journal as Hony Editors.

This volume presents a classified and author index to articles and reports published in the Journal during 1939-88. An attempt has been made to list all material published in IJAE at one place. It is hoped that it will be useful to all adult educators particularly to researchers and practitioners in adult education.

The suggestions to improve it will be welcome.
