Table 2 : Scheduled Castes & Scheduled Tribes Population – 2001	17
Table 3 : Important Demographic Indications of Population in India by States – 2001	18
Table 4 : Statewise Statement of Population and Illiterates by sex – 2001	19
Table 5 : Statewise Statement of literates and Literacy Rates by sex – 2001	22
Table 6 : Statewise illiterates, literates and literacy Rates for Scheduled Castes - 2001	25
Table 7 : Statewise illiterates, literates and literacy Rates for Scheduled Tribes – 2001	26

Table 8 : District wise Population and illiterates Of age group 7 and above by sex and Rural/Urban Areas – 2001	27
Table 9 : District wise literates and literacy rate of The age group 7 and above by sex and Rural/Urban Areas – 2001	64
Table 10: Gross enrolment ratio for Classes I to V And VI to VIII 2001 – 02 by States/UTs	101
Table 11: Drop out rates in Classes I to V and I to VIII by States / UTs	102
Table 12: Class wise enrolment 2001 – 02 for Classes IV to V by States/UTs	103

Annexures :

Annexure I : Statewise list of district having female Literacy rate below 35% - 2001	104
Annexure II: Increase in literacy rates during 1991-2001 by sex for age group 7 and above by States/ UTs	105
Annexure III: Literacy position of population aged 7 years and above by sex and Rural/ Urban Areas – 1981- 2001	106
Annexure IV: Population and illiterates of various age groups for the years 1961, 1971, 1981 and 1991.	107
Annexure V : literates and literacy rate for various age group for the year 1961, 1971, 1981 and 1991.	108

FOREWORD

India is having the largest number of illiterates of the world. This has been the concern of not only the Indian Government but UNESCO has also been emphasizing that there was need to improve this situation as the world literacy also depends on improvement of literacy situation in nine high population countries of the world including India. National Literacy Mission was launched in May 1988. The mission objective is to obtain a sustainable threshold literacy level of 75 percent by 2010. It launched literacy campaigns in the country. During the decade 1991 – 2001, literacy campaigns were spread over almost all the districts of the country. Sarva Shiksha Abhiyan was also launched by Government of India to improve functioning of elementary education in terms of its access, achievement and quality of education.

2. Census results during the last several decades have been showing that the literacy rate in the country was improving at a slow rate of about 8.5 percentage points. Number of Illiterates instead of decreasing actually increased during each decade as the growth of population was higher as compared to the achievement level of educational efforts in the country. It is for the first time that efforts made during the decade 1991 – 2001 have shown that the level of achievement of the educational efforts in making people literate has exceeded increase in the size of population. Final census data 2001 has shown that the number of illiterates of the age group 7 and over which had gone up from about 23 crores in 1951 to the level of about 33 crores in 1991 has declined to around 30 crores in 2001. This is a significant beginning in terms of reducing the size of illiteracy in the country. Final census data for 2001 has shown that literacy rate in the country has improved from 52.2% in 1991 to 64.8% by 2001. This increase of 12.6 percentage points during the decade 1991 – 2001 is very significant keeping in view that the average decadal increase during the last four decades was about 8.5 percentage points.

It is heartening to note that performance in terms of improvement in the literacy situation has been very good in low literacy states like Rajasthan,

Chhattisgarh, Uttar Pradesh, Madhya Pradesh etc. Another achievement of the decade 1991 – 2001 which needs appreciation is that the literacy rate of the women population has increased by higher percentage (14.4) as compared to increase in the literacy rate of male population by (11.2) thereby reducing the gap between male, female rate from 24.8 in 1991 to 21.6 in 2001. Of the 593 districts in the country there are only 84 districts which are having literacy rate below 50%. However, in respect of female literacy, number of districts having literacy rate below 30% is 45. None of these districts has the overall literacy rate below 30%. We are happy to note that the National Literacy Mission is taking special steps to improve the female literacy rate in these low female literacy districts which are located in the states of Arunachal Pradesh (2), Bihar (15), Chhattisgarh (1), Jharkhand (5), Madhya Pradesh (2), Orissa (7), Rajasthan (2), Jammu & Kashmir (3) and Uttar Pradesh (8).

I am grateful to **Shri Prem Chand**, Consultant, IAEA who has planned and prepared this volume of the data series of literacy. I acknowledge with thanks the support, help and guidance provided by **Sh. R.N.Mahlawat**, General Secretary, IAEA in editing the work of this study.

We are sure that the final data of literacy will be useful for educational planners, programme implementing agencies and field functionaries at different levels. The data made available at national, state and district levels will be useful for planning educational efforts at those levels.

New Delhi

Dated : 8th September 2004

K.C.CHOUHARY

PRESIDENT

Indian Adult Education Association

Preface

2001 Census was conducted with reference date of 1st March 2001. Provisional census data was available in the year 2001 itself. The final census data is now being released by Registrar General of India. Indian Adult Education Association brought out a publication "Statistical Database for Literacy Provisional Population and Literacy – 2001, by Rural and Urban Areas" on the basis of provisional census data. This publication is now being brought out to make available the final census data alongwith its analysis. This publication contains population and literacy profile of India and also includes information relating to world adult literacy situation. The analysis of the population of all age groups is by sex, rural, urban areas and Schedule Casts, Schedule Tribes. The publication particularly emphasizes on population of the age group 7 and above and the literacy situation of that age group at national, state and district levels.

2 The publication contains state level tables numbers 1 to 10 which provide state-wise data on total population of all areas and rural areas, Schedule Casts, Schedule Tribes, growth rate of population, sex ratio, birth rate, death rate, infant mortality rate population and illiterate population of the age group 7 and above and number of literates and the literacy rates by sex and rural / urban areas at the State and district levels. Literacy rates for Schedules Caste and Scheduled Tribes population for India and States/UTs are also given by sex.

3. The publication gives age – group wise information on population, illiterate, literate and literacy rates for age groups 5 / 7-10, 10-14, 15-19, 20-24, 25-34 etc. for the country as a whole for the years 1961, 1971, 1981 and 1991. Age group data in respect of 2001 is not yet available. Contribution of Primary education in raising the literacy level in the country has also been analyzed with the help of enrolment and dropout data at primary stage of education.

4. I acknowledge with thanks the continued support, help and guidance in the work of brining out this publication by **Sh. K.C.Choudahry** President and **Shri. R.N.Mahlawat** General Secretary, IAEA.

5. I also acknowledge with thanks the help provided by **Sh. S.C. Dua** Documentation Officer, **Sh. Kripal Singh Mehra** and other staff members of IAEA in brining out this publication.

6. I am sure that this publication will be found useful by adult educators, planners, functionaries and particularly the researchers in the filed of adult education and literacy.

3 Out of School Children (Million)	104.19	45.14	59.05

BRIEF ANALYSIS

I Population of all age groups :

1. 2001 Census was held in 35 States / Union territories of India with reference date of 1.3.2001. At the time of conducting the census, Kinnaur district of Himachal Pradesh and Kuchchh district, four talukas of Rajkot district and one taluka of Jamnagar district of Gujrat were affected by natural calamities of floods and earthquakes and could not be covered at that time. Population enumeration in Kinnaur district was conducted in May 2001 and it was conducted in February 2002 in the earthquake affected areas of Gujarat. Final census data in respect of all States /Uts, excluding information in respect of three sub divisions of Senapati district of Manipur is now available. According to 2001 census, total number of districts in the country was 593. Total population in the country as a whole excluding three sub divisions of Manipur and occupied portion of Jammu & Kashmir came to 1028.61 millions. Population of India including estimates for three sub divisions of Manipur comes up 1028.74 millions. Following table indicates final distribution of total population by sex and urban / rural areas :

Distribution of total population by sex and urban / rural areas

(in 000's)

			Persons	Male	Female
1.	India (Excluding 3 Sub Divisions of Manipur*)	Total	1028611	532157	496454
		Rural	742491	381603	360888
		Urban	286120	150554	135566
2.	India (Including Estimates for 3 Sub Divisions of Manipur*)	Total	1028738	532223	496515
		Rural	742618	381669	360949
		Urban	286120	150554	135566

* Paomata, Mao Maram and Purul sub-divisions of Senapati District of Manipur.

The highest population among the states / union territories was in Uttar Pradesh being 166.20 millions. Other states having more than 50 million population were Gujarat (50.67), Karnataka (52.85), Rajasthan (56.51), Madhya Pradesh (60.35), Tamil Nadu (62.41), Andhra Pradesh (76.21), West Bengal (80.18), Bihar (83.00) and Maharashtra (96.88).

2. Total Scheduled Castes Population in the country was 166.64 millions. It formed 16.2% of the total population. In states of Punjab

(28.9%), Himachal Pradesh (24.7), West Bengal (23.0%), Uttar Pradesh (21.1%). Percentage of Scheduled Cates was more than 20%. The other states having more than national average of Scheduled Caste population were Orissa (16.5), Rajasthan (17.2), Tripura (17.4), Uttranchal (17.9), Tamilnadu (19.0) and Haryana (19.3). There is no Scheduled Castes population in Mizoram, Nagaland, Andaman & Nicobar Island and Lakshadweep.

3. Schedule Tribes population in the country was 84.33 million. It formed 8.2% of the total population of the country. There are some states / union territories where there is concentration of Scheduled Tribes population while there are other states / union territories where there is no tribal population. Among the states having more than 20% tribal population were Madhya Pradesh (20.3), Sikkim (20.6), Orissa (22.1), Jharkhand (26.3), Tripura (31.1), Chattisgarh (31.8), Manipur (34.2), Arunachal Pradesh (64.2), Dadra & Nagar Haveli (80.7), Meghalaya (85.9), Nagaland (89.1), Lakshadweep (94.5) and Mizoram (94.5). In the states / union territories of Bihar, Goa, Haryana, Kerala, Punjab, Tamil Nadu, Chandigarh, Delhi and Pondicherry, percentage of tribal population was either nil or around 1%.

4. Percentage of Urban population which was 25.7% in 1991 increased to 27.8% in 2001 and the corresponding percentage of Rural population decreased form 74.3% in 1991 to 72.2% in 2001. Highest percentage of Urban population was in Delhi being 93.2% followed by Chandigarh (89.8%), Pondicherry (66.5%) and lowest Urban population was in Himachal Pradesh 9.8% preceded by Bihar (10.5%), Sikkim (11.1%) and Assam (12.9%). 10 states which were having more than three fourth of the total Urban population of the country are Maharashtra, Uttar Pradesh, Tamil Nadu, West Bengal, Andhra Pradesh, Gujarat, Karnataka, Madhya Pradesh, Rajasthan and Delhi.

5. Decadal Growth Rate of Population of India which was 23.86 during 1981 – 91 declined to 21.54 during 1991 – 2001. Decadal Growth Rate during 1991 – 2001 was the highest in Nagaland being 64.53% followed by Dadra & Nagar Haveli (59.22%) and Daman & Diu (55.73%). Growth Rate of population in Delhi was also very high being 47.02%. The Decadal Growth Rate was the lowest in Kerala being 9.43% preceded by Tamil Nadu (11.72%) and Tripura (16.31%).

6. 51.73% of the total population of the India is male and 48.27% is female. The sex ratio defined as the number of female population per thousand of male population for the country improved from 927 in 1991 to 933 in 2001. Sex ratio in rural areas was 946 as compared to a low sex ratio of 900 in urban areas. Sex ratio was much lower than the national average of 933 in the States / UTs of Daman & Diu 710, Chandigarh 777, Dadar & Nagar Haveli 812, Delhi 821, Andaman & Nikobar Island 846, Sikkim 875, Haryana 861, Punjab 876, Jammu & Kashmir 892, Arunachal Pradesh 893, Uttar Pradesh 898, Nagaland 900. It was higher than the national average in many states and was even more than 1000 in two states namely Kerala 1058 and Pondicherry 1001.

7. Birth rate, death rate and infant mortality rate are important demographic indicators and greatly influence size and growth of population. Crude Birth Rate which was 29.3 in 1991 declined to 25 in 2001. Crude Death Rate also declined from 9.8 in 1991 to 8.1 in 2001. The Infant Mortality Rate also came down from 80 in 1991 to 63 in 2001. In view of the target envisaged in the National Population Policy 2000, these indicators need to decline further to achieve the target of net reproduction rate of unity (Total Fertility Rate 2.1) by 2010. It would mean reduction of birth rate to 21, and Infant Mortality Rate to 42. According to sample registration system estimates of 2001, birth rate was estimated to be the highest in Uttar Pradesh (31.6) followed by Bihar (30.9) and Rajasthan (30.6). It was estimated to be the lowest in Goa (14) preceded by Chandigarh (14.6) and Tripura (14.9). Death rate is estimated to be the highest in the state of Madhya Pradesh and Orissa (9.8) followed by Uttar Pradesh (9.7) and Assam (9.2). It is estimated to be the lowest in Chandigarh (3.4), preceded by Manipur (4.6) and Arunachal Pradesh (4.8). Infant mortality rate was expected to be very high in Orissa (87) followed by Madhya Pradesh (85) and Uttar Pradesh (80). It was expected to be very low in Kerala (10), Manipur (14), A & N Island (15), Goa (17), Chandigarh (21) and Pondicherry (22).

8. It is observed that the birth rate, death rate and infant mortality rates in the country are declining. However, the demographic profile of the country is not uniform. The low Hindi belt literacy states namely Uttar Pradesh, Bihar, Madhya Pradesh, Rajasthan still have high birth rate, infant mortality rate, Maternal Mortality Rate and low age of girls at marriage.

II Population and Literacy situation of Age Group 7 and above :-

9. According to census definition, a person is treated as literate if he or she can read and write with understanding in any language. According to the Census definition children of age group 0 –6 are not classified as literate or illiterate. So the population of age group 0 –6 is excluded from the purview of the literacy question. According to 2001 Census percentage of population in the age group 0 –6 was 15.9. Literacy rates for population aged 7 and above have been worked out for 2001. Comparative position for the census years 1961, 1971 and 1981 was available for population aged 5 years and above as at that time children of the age group 0 – 4 only were excluded from the census literacy question. Literacy situation for age group 7 and above for 1981 has also been worked out.

National Level :-

10. During the last four decades, population of the country has been increasing at the exponential growth rate of around 2 percent per annum. While the expanded educational facilities pushed up the number of literates in the country, it could not keep pace with the increasing population till 1991. Number of illiterates continued to increase. However it is for the first time that the educational efforts have taken over the growth in population in the age group 7 and above and thereby the number of illiterates has started declining. Statement of population, literates, illiterates of the age group 5 and over for 1961, 1971 and 1981 and the age group of 7 and above for 1981, 1991 and 2001 is given below:

Comparative growth of Population, Illiterates and Literates during 1961 – 2001

(in million)

<u>Year</u>	<u>Age group</u>	<u>Population</u>	<u>Illiterates</u>	<u>Literates</u>	<u>Literacy Rates</u>	<u>Increase In lit. Rates</u>
1961	5 and over	372.84	267.32	105.52	28.30	-
1971	- do -	468.60	307.19	161.41	34.45	6.15
1981*	- do -	581.78	340.75	241.03	41.43	6.98
1981*	7 and over	541.04	305.31	235.73	43.57	-
1991**	- do -	688.16	328.88	359.28	52.21	8.64
2001	- do -	864.79	304.11	560.68	64.8	12.6

* Excludes Assam where 1981 census was not held.

** Excludes Jammu & Kashmir where 1991 census was not held.

11. During 1961- 71 population of the age group 5 and above increased by about 96 millions and the number of literates increased by about 56 million. Thus the number of illiterates increased by 40 million during that decade. Increase in Literacy rate was of the order of only 6.15 percentage points. During 1971-81 increase in population taking into account estimates for Assam for 1981 was of the order of 129 millions and the corresponding increase in literates was 85 million resulting in an increase of illiterates to the extent of 44 million. During 1981 – 91, taking into account the estimates for Assam for 1981 and Jammu & Kashmir for 1991, increase in population was about 138 million and increase in number of literates was about 120 million. Thus the increase in the number of illiterates was only 18 million. The above analysis shows that increase in the number of illiterates was increasing but at a decreasing rate during the years 1961 – 91. Increase in literacy rate during 1981 – 91 was of the order of 8.64 percentage points. 2001 census for the first time has shown that the number of illiterates instead of increasing has actually declined during 1991 – 2001. Increase in population, which was about 176 million is 25 million less than the increase in literates (201 million). The literacy rate during this period also increased by a higher percentage point i.e. by over 12 percentage points as compared to an increase of 8.6 percentage points during the earlier decade. The above data indicates that the educational efforts through primary education and adult literacy programmes during 1991 – 2001 have taken over increase in population.

12. Gender Disparity in literacy rates is a historical phenomenon. In 1901, while the literacy rate for males was 9.83 percent, it was only 0.60% in case of females. Comparative change in literacy rates for males and females during the last four decades is given in the following table :

Year	Age group	Literates in Millions		Literacy Rates		Male/female difference in literacy rate (%age points)
		Male	Female	Male	Female	
1961	5 and over	77.94	27.58	40.39	15.33	25.06
1971	5 and over	112.04	49.37	45.95	21.97	23.98
1981*	5 and over	161.29	79.75	53.46	28.47	24.99
1981*	7 and over	158.22	77.51	56.38	29.76	26.62
1991**	7 and over	229.53	129.75	64.13	39.29	24.84
2001	7 and over	336.53	224.15	75.3	53.7	21.6

* Excludes Assam

** Excludes Jammu & Kashmir

13. The above table indicates that the gap in male, female literacy rates continued to be around 25 percentage points during 1961 – 91. During 1981 – 91 there was a small decline in this gap between male, female literacy rates. During the decade 1991 – 2000, the gap between male, female literacy rates (gender disparity) has declined by around 3 percentage points. However, the gender disparity in literacy rates continues to be over 20 percentage points. Number of female literates per thousand male literates went up from 490 in 1981 to 565 in 1991. During 1991 – 2001 number of female literates per thousand male literates has gone up to 666 and the index of gender equality (female literacy rate/ male literacy rate) which ideally should be 100 has moved up to 71.3.

14. There is a large urban- rural differential in literacy rates. This differential was of the order of about 30 percentage points upto 1981 and showed the declining trend thereafter as may be seen from the following table:

Year	Age group	Literacy Rate		
		Urban Areas	Rural Areas	Difference in rural. Urban areas (% age points)
1961	5 and Over	54.43	22.46	31.97
1971	5 and Over	60.22	27.89	32.33
1981*	5 and Over	64.85	34.04	30.81
1981*	7 and Over	67.20	36.00	31.20
1991*	7 and Over	73.08	44.69	28.39
2001	7 and Over	79.9	58.7	21.2

* Excludes Assam

** Excludes Jammu & Kashmir

15. While about 80% of the Urban population has become literate, literacy rate in rural areas is still below 60%. Difference in urban, rural literacy rates has declined sharply during 1991-2001. It has come down from about 28 percentage points in 1991 to 21 percentage points in 2001. But still it is very high. Literacy rate for females in rural areas is still very low being only 46.1%. When it is compared with the literacy rate of 72.9% for urban female population, the glaring disparity in rural and urban disparities of female literacy becomes evident. When we are talking of literacy rate of 75% to be

achieved by the year 2007, the low female literacy rate particularly in the rural areas presents a big challenge. This needs special attention of the planners of the literacy programmes.

16. Literacy rates for Scheduled Castes and Scheduled Tribes population were lower as compared to the literacy rates of population of all Castes. The following table gives the comparative literacy rates of all castes, scheduled castes and scheduled tribes.

Literacy rates of all castes, Scheduled Castes and Scheduled Tribes – 2001

	All Castes	Scheduled Castes	Scheduled Tribes
All Persons	64.8	54.7	47.1
Male	75.3	66.6	59.2
Female	53.7	41.9	36.5

The above data shows that the literacy rate for Scheduled Castes for all persons is lower by 10.1 percentage points as compared to the literacy rate for all castes. Literacy rate in respect of Scheduled Tribes for all persons was 17.7 percentage points lower as compared to the literacy rate for all castes. Literacy rates in respect of Scheduled Castes are lower by 11.8 percentage points as compared to the female literacy rate of all castes. Female literacy rate in respect of Scheduled Tribes is lower by 17.1 percentage points as compared to female literacy rates of all castes.

State Level

17. Literacy rate at the national level reveals only a part of the story of disparities in literacy situation in the country. Literacy rate among the States/UTs range from 90.86 percent in Kerala to 47 percent in Bihar. Difference between the highest and the lowest literacy rate among States / UTs is of the order of 53.86 percentage points which is even higher than the literacy rate of Bihar. It is observed that while 8 States / UTs have high literacy rate of 80 percentage points and above, 14 States /UTs have literacy rate between 64.8% (the national average) and 80%. There are another 13 States/ UTs

which have literacy rate of below the national average of 64.8%. List of State/UTs falling in the above three categories is given below :

States/ UTs

Literacy Rate below 64.8% :

Chattisgarh, Madhya Pradesh, Assam, Orissa, Meghalaya, Andhra Pradesh, Rajasthan, Dadra & Nagar Haveli, Uttar Pradesh, Jammu & Kashmir, Arunachal Pradesh, Jharkhand, Bihar

Literacy Rate between 64.8% to 80% :

Daman & Dui, Maharashtra, Himachal Pradesh, Tamil Nadu, Tripura, Uttranchal, Manipur, Punjab, Gujarat, Sikkim, West Bengal, Haryana, Karnataka, Nagaland.

Literacy Rate 80% and above:

Kerala, Mizoram, Lakshadweep, Goa, Chandigarh, Delhi, A & N Island, Pondicherry.

18. Literacy rate in 2001 for rural areas varied from 90.04 % in Kerala to 43.92% in Bihar and for urban areas it varied from 93.19% in Kerala to 69.75% in Uttar Pradesh. While literacy rate for male population varied from 94.24% in Kerala to 59.68% in Bihar, literacy rate for female population varied from 87.72% in Kerala to 33.12% in Bihar. Among the states highest literacy rate of 95.94% was in case of Kerala urban male population and the lowest rate of 29.61% in case of rural female population of Bihar.

19. Number of literates increased in all States/UTs during 1991 – 2001. Increase in literacy rate during 1991- 2001 varied from 21.86 percentage points in Rajasthan to 1.05 percentage points in Kerala in respect of all persons. Increase in female literacy rates varied from 23.41 percentage points in Rajasthan to 1.55 percentage points in Kerala. In respect of increase in literacy rates during 1991 – 2001, States / UTs can be divided into the following categories :

- i) States having increase of literacy rate above the national average of 12.63 percentage points (11). Rajasthan, Chattisgarh, Madhya Pradesh, Dadar Nagar & Haweli, Uttranchal, Uttar Pradesh, Orissa, Meghalaya, Tripura, Arunachal Pradesh.

- ii) State having increase in literacy rate between 8.00 percentage points to 12.63 percentage points. (14). Himachal Pradesh, Jharkhand, Haryana, Maharashtra, Sikkim, Punjab, West Bengal, Tamil Nadu, Manipur, Karnataka, Delhi, Assam, Bihar, and Andaman & Niikobar
- iii) State having increase in literacy rate below 8 percentage points (9). Gujarat, Mizoram, Goa, Pondicherry, Nagaland, Lakshyadeep, Chandigarh, Daman and Dui and Kerala.
- iv) Jammu & Kashmir – information not available for 1991 – 2001. literacy rate increased from 32.68% in 1981 to 55.52% in 2001. Average decadal increase during those two decades comes to 11.42 percentage points.

20. Of the 304 million illiterates in the country in 2001, the following eight states, having 15 million and above illiterates each, were having about 70 percent each, were having about 70 percent of the total illiterates of the country :

S.No.	Name of the State	No. of Illiterates	Percentage of total	Literacy Rate
1	Uttar Pradesh	58.85	19.3	56.3
2	Bihar	35.08	11.5	47.0
3	Andhra Pradesh	26.10	8.6	60.5
4	West Bengal	21.57	7.1	68.6
5	Maharashtra	19.24	6.3	76.9
6	Rajasthan	18.15	6.0	60.4
7	Madhya Pradesh	17.97	5.9	63.7
8	Karnataka	15.23	5.0	66.6
		212.19	69.7	

Uttar Pradesh alone with a literacy rate of 56.3% is having about one fifth of the illiterates of the country. Bihar with the lowest literacy rate of the country is next in terms of large number of illiterates. Rajasthan, Madhya Pradesh and Andhra Pradesh are the other three states falling in the Category of having more than 5% of the illiterates of the country who have literacy rate below the national average of 64.8%.

21. Of the 304 million illiterates in the country, 193.5 million forming 63.6 percent of the total were female. Literacy rates for females were lower than

the national average of 53.7 percent in 10 states and one union territory.

These states / UT are :

1. Bihar (33.1%)
2. Jharkhand (38.9%)
3. Dadra & Nagar Haveli (40.2%).
4. Uttar Pradesh (42.2%)
5. Jammu & Kashmir (43.0%)
6. Arunachal Pradesh (43.5%)
7. Rajasthan (43.8%)
8. Madhya Pradesh (50.3%)
9. Andhra Pradesh (50.4%)
10. Orissa (50.5%) and
11. Chhatisgarh (51.8%)

Number of female illiterates was more than 10 million in each of the following five states of:

1. Uttar Pradesh (36.7).
2. Bihar (21.1).
3. Andhra Pradesh (16.2),
4. Maharashtra (13.2),
5. Madhya Pradesh (11.8) and
6. Rajasthan (12.4)

22. Out of 62.4 million Scheduled Caste illiterates 38.7 million forming about 62 percent were women. Over 75% of the total were Scheduled Caste illiterates residing in the following eight states :

	Number (in millions)	Percentage to total of India
1. Uttar Pradesh	15.0	24.0
2. Bihar	7.2	11.5
3. West Bengal	6.4	10.3
4. Andhra Pradesh	4.9	7.9
5. Rajasthan	3.7	5.9
6. Karnataka	3.4	5.4
7. Madhya Pradesh	3.1	5.0
8. Tamil Nadu	3.8	6.1
Total 8 states :	47.5	76.1
Total India :	62.4	100.0

About one third of the Scheduled Castes illiterates were residing in the Hindi speaking low literacy states of Uttar Pradesh, Bihar, Rajasthan and Madhya Pradesh.

Total number of tribal illiterates was 36.4 million. Of these 22.2 million forming about 61% were female. States having more than three million Scheduled Tribes illiterate population each are Madhya Pradesh (5.7), Orissa (4.2), Chhatisgarh (3.8), Jharkhand (3.4), Gujarat (3.2), Maharashtra (3.1), Rajasthan (3.1). Number of Scheduled Tribes illiterates in these seven states was 26.5 million forming about 73 percent of the total Scheduled Tribes illiterates.

District Level :

23. At the time of 2001 census, number of districts in the country was 593 as compared to 466 districts at the time of 1991 census. All the 593 districts were covered by 2001 census as compared to only 452 districts covered during 1991 census. Disparity in literacy rates at the district level was very acute. It varied from 95.8% in Kottaryam district of Kerala state to 31.1% in Kishanganj district of Bihar State. Highest literacy rate of 97.5% was in respect of male population of urban areas of Kottaryam district and the lowest literacy rate was 15.4% was in respect of female population of rural areas of Kishanganj district in Bihar.

24. Frequency distribution of districts by literacy rates in respect of all persons is given below :

Literacy Rate	No. of districts having literacy rate	
	<u>All Persons</u>	<u>All Areas</u> <u>Rural Areas</u>
0 – 10	-	-
10 – 20	-	-
20 – 30	-	6
30 – 40	25	29
40 – 50	59	94
50 – 60	136	163
60 – 70	174	160
70 – 80	139	105
80 +	60	27
Total :	593	584

It is observed that there was no district having literacy rate of below 30 percent. Number of districts having literacy rate below 50 percent was 84. Highest frequency of districts (174) was in the range of 60 – 70 percent literacy rate. The mean of the literacy rate also lay in this range. Total number of districts having rural areas was 584. Literacy rate of rural areas of 129 districts was below 50 percent. While 60 districts were having literacy rate of 80 and above, in case of rural areas only 27 districts had reached the level of 80 percent literacy. This shows a glaring disparity in overall literary rates and literacy rates in rural areas at district level.

25. Frequency distribution of districts by literacy rate of females indicates a different scenario as may be seen from the following table :

Literacy rate Females only	No. of districts having female literacy rate	
	All Areas	Rural Areas
0 – 10	-	-
10 – 20	2	13
20 – 30	45	64
30 – 40	88	117
40 – 50	126	150
50 – 60	142	117
60 – 70	116	86
70 – 80	50	17
80 +	24	20
Total :	593	584

Number of districts having female literacy rate in the range of 20 – 30 was 45 besides 2 districts falling in the range of 10 – 20 percent literacy rate. 261 districts forming 44 percent of the total were having female literacy of below 50 percent. Highest frequency of the districts in respect of female literacy rate was in the range of 50 – 60 percent literacy rate. The mean of this series was also in this range of 50 – 60 percent. Female Literacy situation in rural areas was even worse. Rural areas of 77 districts were having literacy rate of below 30 percent. 59 percent of the rural areas of 584 districts were having female literacy of below 50 percent. This shows that the female literacy rates were quite low and particularly so in case of rural areas at the district level as well.

26. A list of 66 districts having female literacy of upto 35 percent based on 2001 census data is enclosed as Annexure –I. These districts need special attention in terms of raising female literacy.

III Contribution of primary education and adult literacy programme in improving literacy situation :-

27. Number of literates during 1991- 2001 increased by about 200 million from 360 million in 1991 to 560 million in 2001. This shows that an average annual increase in the number of literates during the decade 1991- 2001 was 20 million per year. Increase in literacy rate is a result of persons made literate through primary education and adult literacy programmes. 2001 – 2002 data for primary education indicates that gross enrolment ratio for classes I to V was 96.3% for both boys and girls taken together and it was 86.91% for girls only. Enrolment and progression data for classes I to V has shown that the drop out rate in classes I to V in 2001 – 2002 was 39% for both boys and girls and it was about 40% in respect of girls. It is assume that children who complete class III and are enrolled in Class IV acquire retainable literacy. Enrolment data for class IV shows that there was 19.7 million children enrolled in classes IV in different States/ UTs of the country. On basis of this data, it can be assumed that about 20 million children are being made literate per year through the primary education system in the country. Monitoring reports of National Literacy Mission brought out by Directorate of Adult Education, Government of India indicate that about 6 million persons became literate through adult literacy programme during 2001-2002. This shows that about 25 – 26 million persons per year as against 20 million during the decade 1991 – 2001 are now becoming literate. If the drop out rate can be reduced further and the achievement of adult literacy programme is improve, literacy situation can improved faster during the decade 2000- 2010.

IV. Population growth and Literacy by Religion

28. Growth rate of population by different religions as revealed by 2001 census indicates that growth rate of population among Muslims was the highest. It increased from 34.5 percent during 1981-91 to 36 percent during 1991-2001*. Comparative data in respect of Hindu religion indicated that its growth declined from 25.1 percent during 1981-91 to 20.3 percent between 1991 - 2001. The growth rate of Christians

**Rate of increase during 1991-2001, will come down if estimates for Jammu & Kashmir are included in 1991 census data.*

increased from 21.5 percent during 1981-91 to 22.6 percent between 1991-2001. Growth rate of Buddhists and Sikhs declined from 35.3 percent to 24.5 percent and 24.3 percent to 18.2 percent respectively. In case of Jains the increase was from 4.6 percent to 26 percent. Out of a Total Population of 1028 million in 2001, Hindus were 827 million constituting 80.5 percent of the total. Muslims with a population of 138 million formed 13.4 percent of the total. Total population of Christians was 24 million. Sikhs with a population of 19 million, Buddhist with a population of 7.9 million and Jains with a population of 4.2 million are the other main religions of the country. Population of the small religions aggregated to 6.6 million. The Parsi population declined from 76382 in 1991 to 69601 in 2001. The literacy rate among Hindus was 65.1 percent which is slightly better than the National Average of 64.8 percent for all religions. Among Muslims the literacy rate was 59.1 percent. The highest literacy rate 90.6 percent was observed in case of Jains followed by Christians 80.3 percent, Buddhists 72.7 percent and Sikhs 69.4 percent. The gender gap in the literacy among Hindus is 23 percent and among Muslims it is 17.5 percent as compared to the over all average of 21.6 percent for all religions.

IV Reliability of literacy data

29. Census in India is conducted after every ten years and it is conducted with reference to a specific data and covers the total population of the country. Till 1991 census data which is available after every 10 years was considered as the only reliable source of literacy status in the country. After the launching of NLM, need for mid term literacy data was keenly felt. National Sample Survey organization collect literacy data through its household surveys as part of particulars of household members. National Family Health Survey (NFHS-2) 1988-99 conducted by International Institute for Population Studies Mumbai brought out data on literacy of age group 6 and over and for different age groups. The results of 53rd round of NSSO survey (1997) indicated a literacy rate of 62 percent for the age group 7 and over for 1997. An increase of 10 percentage points from 1991 to 1997 in just six years was reported. NFHS-2 indicated an increase of about 11 percentage points during 1991-99. An increase of 12.6 percentage points reported by the census 2001 as compared to the earlier decadal increase of 8.5 percentage points can be relied upon keeping in view the results reported by the earlier surveys and the increasing educational efforts made during the decade 1991-2001.

TABLE - 1

TOTAL POPULATION OF ALL AREAS AND RURAL AREAS BY SEX - 2001

(Figures in 000'S)

S.No	STATES/UTs	No. of DISTRICTS	ALL AREAS			RURAL AREAS
